

ARMOURCOAT®

SUSTAINABLE LUXURY FINISHES

SPECIFICATION SHEET

POLISHED PLASTER SELECTOR RANGE - ISTRIA

A superfine polished plaster with the appearance of honed stone.

Istria is a matte stone polished plaster with subtle tonal variation created by the ingrained surface movement. Named after the characteristic building of Venice, Istria is a natural mineral material made from aged lime putty and recycled crushed marble. The finish is hand applied with a trowel, imparting the movement of the craftsman into the organic, non-directional surface pattern.
