# Care & Maintenance Sheet 3 ArmourColor Decorative Coating

## 1 Cleaning Surface Dirt and Grime

Mix a small quantity of liquid detergent or soap into a bucket of clean water. Work from top to bottom of dirty area using a well-soaked soft cloth, sponge, very soft bristle brush or low pressure garden mist sprayer. Do not use scouring pads, industrial strength cleaners or solvents, since these may damage the film.

Do not allow cleaning solution to dry on the wall. Where possible blot the wall dry with an absorbent towel or sponge. ArmourColor decorative coatings will be unaffected by mild detergents but may soften slightly with prolonged cleaning. It is recommended that a small area is test cleaned to check for a satisfactory result.

## 2 Damage and Repairs

ArmourColor decorative coatings are tough and durable coatings, but can be damaged. In the event of damage please contact the installer for technical assistance, instructions and patching material.
